ELISHA PAUL

JUNIOR AI/ML ENGINEER

India, Chennai | United Arab Emirates, Ajman | +971 522186523 | paulelisha500@gmail.com | LinkedIn

Portfolio | GitHub

SUMMARY

Freshly graduated with a B.Tech in Computer Science Engineering (AI & ML), with 2 years of hands-on project experience during college. Proficient in software libraries and automation required to execute and deploy APIs, Websites, and SDKs. My internship at Tritrix Technologies deepened my knowledge of relevant software and hardware systems, while equipping me with essential project management skills — including task delegation, error resolution, and cross-functional teamwork.

Successfully completed 8 projects, most notably a final-year group project completed within 5 months by a 3-member team. The project is an AI-powered health app that identifies conditions, explains routines, suggests products, and answers user queries. It leverages advanced AI integrations including LSTM, CNN, NLP, and Computer Vision, with libraries such as OpenCV, PyTorch, NumPy, TensorFlow, Pandas, and Scikit-Learn. Built using the MERN stack with an AI/ML infrastructure encompassing Docker, GitHub, EC2, S3, CI/CD pipelines, and RAG.

WORK EXPERIENCE

Software Developer Intern, Tritrix Technologies, Chennai

01/2025 – 02/2025

- Contributed to the development and enhancement of a web-based application during a one-month internship.
- Assisted in implementing an AI-based application software using Python and Java, enabling customers to design and write children's storybooks.
- Supported frontend development with React, HTML, and CSS, and aided in basic SQL queries for data retrieval and standard development workflows.
- Utilized Git for version control and collaboration, gaining exposure to professional coding standards, agile teamwork, and structured delivery timelines by participating in code reviews, sprint planning, and progress tracking to ensure high-quality, on-time releases.

EDUCATION

Vels Institute of Science Technology and Advanced Studies

B.Tech CSE – Artificial Intelligence & Machine Learning | Pallavaram

2022 – Present

SKILLS

Technical Skills

- Python
- SQL
- RAG & NLP
- AWS (EC2 & S3)
- PyTorch & TensorFlow
- OpenCV (Computer Vision)
- Docker & CI/CD (GitHub Actions)
- Hugging Face (Hub & Spaces)

Professional Skills

- Problem-Solving & Critical Thinking
- Collaboration & Adaptability
- Leadership & Emotional Intelligence
- Time & Project Management
- Growth Mindset

LANGUAGES

Tamil
(Native)

English
(Fluent)

Arabic
(Basic)
